4. [] Senator Leverett Saltonstall telephoned the Director apparently inquiring as to when the Director would be meeting with the Senate Armed Services Subcommittee. The Director pointed out that he very much would like to do this and had raised the point several times. The Director suggested Senator Saltonstall take this up with Senator Russell indicating that the record does not look good after looking into where we have no meetings with the Subcommittee. The Director further indicated that if this did not work probably in order to establish a record he would write to Senator Russell concerning this. (I indicated to the Director later that I have pressed Mr. Darden on this at least five times with a record made each time.) Apparently Senator Saltonstall raised the question of a meeting with Senate Appropriations Subcommittee and the Director indicated this was not as urgent since he had not yet had his full budget meeting with the House Appropriations Subcommittee.

5. [] Jim Hyde telephoned on S. J. Res. 77 stating that DOD had requested guidance on how to respond to a request from Senator Fulbright for comments. Hyde indicated DOD thought possibly NSC action should be taken and Hyde wished our views on this. This was discussed with the Director who indicated he was not sure that NSC action as such was necessary although he thought we should discuss it with the White House. I stated I had planned to do so if he approved a proposed letter and indicated that I had planned to see Myer Feldman on this. He agreed with this including routine clearance with the BOB.
